

The Searchlight Victims Support Group

Mailing Address: A. Jones. BM 4534, London. WC1N 3XX.

Dear Colleague,

Thank you for enquiring about the SEARCHLIGHT VICTIMS SUPPORT GROUP.

As our names implies, we are not a political party.

You are probably aware that the Searchlight organisation spends much of it's time exposing political opponents who are then often harassed at work and at home, their property is sometimes damaged and, in some cases, they suffer physical attacks.

We believe that in a democracy politics should be fought through the electoral system and differences the subject of debate. Searchlight and its supporters never field candidates to test their support or lack of it, in the democratic way, preferring instead the tactic of exposure and harassment. In short, Searchlight are ANTI-DEMOCRATIC!

Our primary task therefore, is to educate Searchlight and its supporters that the exposure tactics used against those they perceive as political opponents, CAN ALSO BE USED AGAINST THEM!

Through our magazine, TARGET, we publish the same type of personal details of Searchlight supporters as they publish about others but, unlike Searchlight, we insist that in doing so we would NOT wish to cause any harm or harassment to those that we expose.

Since we began our campaign we have received several letters from former Searchlight supporters who have now "seen the light" and now reject this form of political tactic. Also, those who have been exposed by us and are unhappy with our work, we advise them to complain directly to Searchlight. WHEN THEY STOP, THEN SO WILL WE!

Finally, those who have been victims of Searchlight exposures, we try to give help with advice on personal and home security, and legal advice where appropriate.

All our staff are volunteers and all donations are re-invested into the support group. If you can help be selling TARGET, making a donation or providing information about Searchlight and its supporters, we would like to hear from you soon!

Until Victory!

A. Jones.
Victim Support Co-Ordinator.
